A Revised and Expanded Course

This training program is for developing safety management skills and accident-prevention expertise. Participants successfully completing all elements of the program receive recognition as Safety & Health Specialist from the *Safety & Health Council of Western Missouri & Kansas*.

Enroll Now for the September 2014 - May 2015 Course

The Safety & Health Specialist Certification program meets the requirements of organizations that need employees with comprehensive safety skills they can apply to real-life situations. To ensure this result, each course is taught by instructors with extensive hands-on experience in the subject areas. Participants with newly-acquired safety responsibilities - as well as those with years of experience - will benefit from this certification program.

The Safety & Health Specialist Certification program consists of 27 safety topics taught in 17 8-hour sessions. Participants receive credit towards certification for all courses completed within a two-year period. All 17 sessions must be completed to receive the Safety and Health Specialist Certification.

Classes are held 8am - 4pm (Lunch is provided)
All classes will be held at the Safety & Health Council of Western Missouri & Kansas Training Center located at 5829 Troost Ave. Kansas City, MO 64110.

It is important to make every effort to attend as scheduled. We have added in 1 makeup date at the end of the sessions. You will have 2 years from start to complete the program.

Also provided are these additional individual course certificates:

- **OSHA 10 Hour Card for Construction Industry**
- **OSHA 10 Hour Card for General Industry**
- **National Safety Council First Aid Certification (3 Years)**
- **National Safety Council CPR Certification (2 Years)**
